A TOUCH OF ELEGANCE

As a premium water expert, KLUDI provides modern high end bathroom solutions, with a touch of harmony and design.

KLUDI surprises, informs and inspires, through a complete and sophisticated range of faucets, sanitaryware & other bathroom products of high design. Its design is not only focused on appearance and style, but also on practicability and emotional appeal. Excellent design goals when it harmonizes with functionality and satisfies people's needs, resulting in added benefits. Well recognized as one of the preferred innovative German brand by architects, interior designers, installers and end users, KLUDI gives shape to your idea of bathroom through research and attention to detail, improving people's quality of life.

KLUDI 

GLOBAL DESIGN, MADE IN GERMANY

KLUDI is a contemporary high-end brand for sophisticated bathrooms and high-quality kitchens. A perfect combination of 100-year tradition as a German fittings specialist and water expert with pioneering innovations and perfectly formed design. KLUDI solutions convince through German engineering and premium quality, high reliability in their function and sustainability in their use, an incomparable and timeless elegance in design and tangible sensuality in water experience.

BATHROOM SMART LUXURY LIVING IN STYLE

Smart Luxury-Interior styles open up a wide range of design options: Modern Classic, Puristic, Contemporary and Avantgarde. A variety of options for sophisticated bathroom design. A fit for every style. After all, interior design is all about finding a personal touch.

MAGICAL COMBINATIONS

A COMPLETE RANGE OF COLORS,
FINISHES, MATERIALS

OUR PALETTE OF COLORS

PVD COATING

18

HIGH-GRADE BRILLIANCE

Various metallic finishes are equally popular in homes. Brushed gold, brushed bronze and brushed gunmetal are particularly popular. KLUDI uses the physical vapor deposition (PVD) process, originally developed for use in space technology, to apply these shiny surface variants in excellent quality and perfect brilliance. In this process, the fittings are physically vaporized in special vacuum chambers using mixtures of inert gases ignited in a magnetic field.

The composition of the gas mixture determines the color. PVD surfaces are about ten times harder than chrome. They are therefore considered to be extremely durable and long-lasting.

FINISHES:

POWDER COATING

19

ELEGANT MATT

For matte pastel and color shades that are currently on vogue in interior design, KLUDI uses an innovative powder coating that brings out the matte colors particularly well. The fittings are finished with an electrostatically charged powder coating. The powder consists of finely ground polyurethane and epoxy resin, both of which have a high chemical and mechanical resistance. This gives the surfaces particular resistance and durability. At the same time, powder coating is considered an environmentally friendly painting process because no solvents are used.

FINISHES:

KLUDI-NOVA FONTE PURA
COMBINES A UNIQUE SOPHISTICATION
WITH AN APPEALING LIGHTNESS AND
SUBTLETY

20

21

reddot winner 2022

HARMONY AND FUNCTIONALITY COMBINED

KLUDI-NOVA FONTE PURA combines a unique sophistication with an appealing lightness and subtlety.

The geometries have been reduced to the bare essentials and brought into harmonious proportion. Consistency down to the smallest detail is evident in the absolutely precise transitions between the spout and the body, and the ultimate exact corner radii of the lever with the flat surfaces.

Its extremely sophisticated design not only expresses lightness and transcendence, but also makes minimal use of materials. Since the smaller ecological footprint fulfils today's sustainability requirements, KLUDI-NOVA FONTE PURA is the true archetype of a new era.

No visible grub screws / covers

Filigree lever design (9 mm wide)

K25 Cartridge

Additive joining body & outlet

Filigree tube spout (Ø21 mm)

Aerator with s-pointer

Ø36 Body diameter

Ø50 Rosette diameter

FILIGRAN

- Geometries reduced to a maximum particularly slim design

SUSTAINABLE

- Saving water with a flow-rate of 4.5 l/min
- Reduced use of materials - to conserve resources
- Energy-saving manufacturing processes
- Plastic-free packaging/ biodegradable bag alternatives instead of plastic bags

PRECISE

- Extremely precise transitions of spout & body (the spout is plugged onto the body).
- Precise corner radii of the lever with flat surfaces require high manufacturing skills for a particularly elegant design

NOVA FONTE PURA is elegantly reduced to the essential, meticulously balanced in its proportions and consistently designed down to the smallest detail. Full of character and unobtrusive at the same time, it impresses with its timeless elegance.

Michael Stein, Designer

SUSTAINABILITY, FROM PRODUCTION TO USAGE

The extremely filigree design and reduced dimensions of all KLUDI-NOVA FONTE PURA models also enable a significant reduction in the amount of material used in production. This makes it possible to save raw materials and energy. KLUDI also uses materials whose environmental compatibility has been tested and certified throughout the packaging. Instead of plastics, KLUDI uses bio-based packaging material obtained from renewable raw materials. This plastic-like material is biodegradable and compostable.

In addition, the water flow rate of all KLUDI-NOVA FONTE PURA washbasin fittings is reduced to five liters per minute as standard - with a high level of comfort. This protects the environment and resources, especially in case of hot water, less water always means more energy efficiency. This applies in particular to the EcoPlus models of the series, where cold water flows in the normal position of the lever. With its ecological footprint reduced in this way, KLUDI-NOVA FONTE PURA meets the requirements of contemporary sustainability in a special way.

Unity in perfection: KLUDI-NOVA FONTE PURA in an ideal combination with KLUDI-NOVA FONTE PURISTIC.

SHOWER DREAMS YOUR PERSONAL EXPERIENCE

Head showers, hand showers and shower systems are small technical masterpieces with the intention of making shower dreams come true.

An experience that refreshes all senses and at the same time allows a moment of “release”.

KLUDI-ASANA WELLNESS PROGRAM

A SHOWER EXPERIENCE FOR ALL SENSES

In the bathroom, the shower plays a key role in creating an individual wellness experience. The large-format KLUDI-ASANA ceiling showers offer wellness with a real wow effect and the ultimate in showering comfort. They impress with their size alone, but even more so with their heavenly water experience.

This is especially true of the models that, in addition to a pleasant, voluminous summer rain, provide extra wellness with a focused laminar flow or a waterfall-like cascade and light. KLUDI-ASANA ceiling showers are made of high-quality stainless steel and are fully integrated into the ceiling so that they blend harmoniously into the bathroom.

A wide range

- Three sizes: 340x340 mm, 440x440 mm, 600x300 mm
- Single jet (summer rain) or dual jet (summer rain and clean jet or summer rain and waterfall)
- Atmolight, ambiance lighting (LED) for Chromotherapy

SUMMER RAIN

WATERFALL

SUMMER RAIN

CLEAN JET

BALANCE YOUR ENERGY THROUGH CHROMOTHERAPY

Atmolight colours

INNOVATIVE EASY INSTALLATION

Patented system allows easy ceiling installation, harmoniously integrated. KLUDI-ASANA is also available for the bath – as a beautifully designed waterfall spout. The system is ideal for both small renovations and large projects and reduces installation time to just a few minutes.

Tighten the clamp holders one by one and fix the head shower in the ceiling.

KLUDI-DIVE
DIVE INTO INSPIRING
SHOWER WORLDS

KLUDI-DIVE

Dive into inspiring shower worlds

New types of jets, incredible design ideas, tangible added value – the innovative KLUDI-DIVE shower range offers a one-of-a-kind, all-round wellness experience in the shower:

Top-Features

- KLUDI-DIVE hand showers redefine showering with the three new Body, Hair and Skin jets.
- The design incorporates a cleverly positioned chamfer that creates an impressively light and modern look.
- KLUDI-DIVE hand showers are available in two sizes: the sDIVE with a 107 mm shower head and the xDIVE with a 117 mm shower head – with either one or three jets.
- Stylish head showers in two designs and four new shower systems round off the range.
- Special water-saving options help to conserve water and energy – without sacrificing any comfort and showering pleasure.

WHAT MAKES THE PERFECT HAND SHOWER?

This question was answered by celebrity hairdresser Chris Coenen himself, his team and 100 of his customers during the course of a dynamic test phase. The developers at KLUDI have created the three new types of jets based on their responses.

Concentrically arranged on the spray head of the three-jet hand showers, they can be easily and conveniently switched over with a button

BODY
gentle, full-body, relaxing

HAIR
concentrated, more water pressure, much water

SKIN
focused, massaging, revitalising

Body
All over, voluminous, soft, relaxing – for a complete wellness experience in the shower.

Hair
A revolutionary new jet pattern – powerful, surface-focused, with more water and enough power to wash out shampoos and hair treatments thoroughly and quickly, even from long and thick hair.

Skin
Concentrated, gently tingling, massages the skin and invigorates.

UNIQUE “BODY-HAIR-SKIN” SPRAY TYPE CONCEPT

KLUDI-DIVE spray type concept “body-hair-skin” was developed together with the expert & customer Expert - Chris Coenen. A survey of 100 studio customers revealed:

- Almost all clients use the hand shower for shampoo rinsing.
- None of the clients were satisfied with the spray of their hand shower for shampoo rinsing.
- They all wanted more water and more pressure than the normal spray.
- Rinsing shampoo takes too long, especially for long haired people.

CONCEALED SHOWER SOLUTIONS FOR LIFESTYLE BATHROOMS

Concealed solutions are becoming increasingly popular in the bathroom, especially in the shower. They allow more variability and flexibility in room design.

They leave more free space because the fittings installed in the wall take up less room - a major advantage not only in small bathrooms.

Architects and interior designers are not the only ones to appreciate the fact that concealed ready-to-use sets blend discreetly and unobtrusively into the room and its overall design. In addition, smart developments such as digital shower controls have significantly increased ease of use and user-friendliness.

Our new, innovative concealed solutions for the shower are in line with the trend towards digitalization in the bathroom.

On the other hand, with our once again significantly improved KLUDI-SLIM.BOXX, we ensure ultra-flat designs of the concealed rosettes with optimum ease of installation.

KLUDI-TOUCHTRONIC

YOUR BATHROOM IS DIGITAL,
YOUR BATHROOM IS SMART

ONE TOUCH IS ENOUGH

At the touch of a finger on the easy-to-understand icons of the operating display, up to three consumers can be individually controlled with KLUDI-TOUCHTRONIC - it could hardly be more convenient and intuitive.

User/shower programs

Up to three individual shower programs can be activated

Switch on/off

DIGITAL AND URBAN

Smart control unit

- Ultra-flat design reduced to the essentials
- Discreet elegant look
- High-quality touch display made of black tinted polycarbonate
- Easy-to-read and easy-to-understand icons for simple and convenient operation
- Easy to clean

TOUCHTRONIC CAN DO EVEN MORE

KLUDI-TOUCHTRONIC enable two or three elements in the shower to be controlled digitally by means of a high-quality touch display. Integrating the system into the home wireless network additionally allows it to be controlled using the S-FLOW App, which also offers other useful functions, including heating and consumption statistics. With KLUDI-TOUCHTRONIC you can customize your wellness experience and memorize your shower scenarios up to 3 individual users. Consumption and energy values are displayed in the APP, allowing you to check your energy and water saving.

Download the S-FLOW App, to customize your wellness experience.

What the S-FLOW App can do:

- Switch on and off
- Control the water quantity and temperature separately for each element
- Programme up to three individual showering parameters
- Pre-heat function
- Set the temperature lock
- Configure a child safety lock
- Maintenance functions (e.g. anti-legionella bacteria flushing, cleaning programme)
- Display various consumption values (water volume, energy consumption, etc.)
- Intuitive user interface
- Available free of charge for Android and iOS devices

KLUDI-PUSHTRONIC

THE ULTIMATE SMART LIVING

PRESS AND TURN

With KLUDI-PUSHTRONIC, two consumers can be controlled individually - simply, conveniently, intuitively.

Water Volume

- Push to switch on and off the consumers (e.g. hand shower and overhead shower) - both consumers can also run at the same time
- Endless turning in both directions to regulate the water volume

Water temperature

- Endless rotation in both directions to set the desired temperature
- Environmentally friendly and resource-saving: water volume and temperature are preset to a flow rate of 8 liters/minute or °35 Celsius.
- Safe: A temperature lock limits the maximum temperature to °44 Celsius.
- Intelligently networked: Integration into the home WLAN additionally enables control via app with further useful functions (e.g. warm-up, child safety lock, cleaning rinses).
- Economical and ecological: the App keeps water and energy consumption under control.

DIGITAL LIFESTYLE FOR THE MODERN BATHROOM

KLUDI-PUSHTRONIC is an extremely flat masterpiece that is operated like a high-quality luxury fitting. At the same time, the fitting has all the advantages of an electronically controlled thermostatic fitting, right up to operation via smartphone or tablet. KLUDI-PUSHTRONIC enable two elements in the shower to be controlled digitally with knobs that can be completely retracted. Integrating the system into the home wireless network, additionally allows it to be controlled using the S-FLOW App, which also offers other useful functions, including heating and consumption statistics that will allow you to check your energy and water saving.

Download the S-FLOW App, to customize your wellness experience.

What the S-FLOW App can do:

- Switch on and off
- Control the water quantity and temperature separately for each element
- Pre-heat function
- Set the temperature lock
- Configure a child safety lock
- Maintenance functions (e.g. anti-legionella bacteria flushing, cleaning programme)
- Display various consumption values (water volume, energy consumption, etc.)
- Intuitive user interface
- Available free of charge for Android and iOS devices

KLUDI-SLIM.BOXX
NEW CONCEALED UNIT

A NEW STANDARD FOR CONCEALED INSTALLATIONS

When it comes to the water installation in the wall, brain is needed. This is where the KLUDI-SLIM.BOXX comes in, the significantly improved successor to our tried and tested KLUDI-FLEXX.BOXX. The unit sets new standards for concealed installation in several respects.

The name says it all

- 7 mm high - the KLUDI-SLIM.BOXX prefabricated sets are among the flattest on the market
- 149 mm in diameter - discreet, pleasantly unobtrusive appearance

Less work for the professional

- Reduced installation depth of only 75 mm - less is hardly possible
- Easily suitable for narrow drywall
- Compensation of up to seven degrees of rotational offset - quickly and without great effort during installation

Rubber instead of plastic

- Ensures perfect impermeability
- Cut to length with cutter and without
- Special tools
- Break-proof

More sustainability

- Support tube made of plastic-wood composite
- Cover made of recycled cardboard

KITCHEN COMPETENCE

The KLUDI brand, like hardly any other, stands for the highest level of competence in design and function when it comes to fittings for the kitchen. And for innovative functions that take on award-winning forms. The Kitchen Competence concept combines outstanding functions in a clear range to make things as easy as possible for you.

COMFORT

Provides all the features needed for everyday use

COMFORT PLUS

Meets sophisticated needs by combining basic and additional features

EXCELLENCE

Meets the highest expectations by combining basic features with exclusive additional features

FUNCTION LEVELS

PERFORMANCE FOR LIFE

The sink is at the heart of everyday kitchen life. It's where we do so many things: from filling glasses and preparing meals to cleaning kitchen utensils. That makes it all more important to find the perfect fitting for your individual needs to make your work easier and add true value in your kitchen. Making this decision as easy as possible for you, our new kitchen range groups specific kitchen needs into three function levels: COMFORT, COMFORT PLUS and EXCELLENCE.

Our three basic designs M-, L- and C-LINE also combine all shapes that turn your kitchen's 'watering hole' into a veritable eye-catcher. Find the perfect kitchen fitting with all the features you need and your preferred design.

M-LINE

Mainstream / priority market segment

L-LINE

Lean / L-shaped

C-LINE

Curved / C-shaped

BASIC DESIGNS

KLUDI-E-GO VOICE

THE DIGITAL KITCHEN MIXER
WITH VOICE CONTROL

KLUDI-E-GO VOICE

Smart convenience for the kitchen. The Kludi-E-GO Voice kitchen fitting combines voice control with digital and mechanical operation.

- Integrated in the home wireless network, Kludi-E-GO Voice can be operated by voice control in interaction with Amazon Alexa or Google Home.
- It can be pre-set with two customised water volumes, which can be activated by tipping once or twice on the digital lever.
- The S-FLOW-App is particularly user-friendly and enables intuitive operation. It also provides information about water and energy consumption.
- A practical aid when working in the kitchen is the pull-out spray tap with two types of jet.
- Available in classic chrome and in on-trend matt black or matt white finishes.

OUR STRENGTHS, OUR PHILOSOPHY

At KLUDI, we are masters of our craft because, since 1926, we have concentrated on what we do best: developing, designing and manufacturing premium products for bathrooms and kitchens. And because we focus on the needs and requirements of our customers. Satisfying them is what drives us and remains our ultimate goal.

Awarded design that serves people

KLUDI designs and manufactures products used by people several times within every day. Therefore, KLUDI's designs are not just only focusing on appearance and style, but also on convenience, practicability and emotional appeal. Excellent design goals when it harmonizes with functionality and satisfies people's needs, resulting in added benefits. That's why our fittings leave a lasting impression - even on design award juries. KLUDI products have won many globally recognized awards for excellent design quality.

Innovation is just doing it

Freely following this motto KLUDI has been developing trendsetting solutions for bathrooms and kitchens for almost 100 years. The focus is always on bringing to life people's diverse ideas of their dream bathroom and kitchen, with special attention to detail and forward-looking research. Our perfectly shaped designs and constant aspiration are to make life a little easier, safer, more pleasant, and more beautiful with every development. KLUDI aims to enhance people's quality of life through simple and secure installation, intuitive and convenient usage, perfect water enjoyment, and environmentally-friendly disposal at the end of the product's lifecycle.

Zero-fault tolerance

KLUDI never compromises on quality. Every KLUDI product is crafted with excellence, showcasing true value workmanship. KLUDI has nearly a century of expertise and emphasizes quality at every stage of the development and manufacturing process, beginning with customer needs. KLUDI values the use of high-quality materials and their precise manufacturing. Regarding quality control: Every plant has its own quality management team. Every single component is inspected before it goes into production or sub-suppliers part is mounted. Inspections are also performed during each step of the manufacturing process. Hereby most advanced testing equipment, like 3D coordinate measuring machines and electronic measuring microscopes are used. Our only benchmark: zero-defec. This is the only way to achieve the greatest possible customer satisfaction.

That makes a difference Simple, sustainable, plastic free.

This change is hard to miss. A new sustainable packaging concept has replaced our standard packaging. Not only does the packaging look and feel good, it's also certified.

KLUDI ECO flow limiter

From shower systems, showerheads and basin mixers in the bathroom to kitchen faucets - the ECO technology integrated in many water-saving products limits the flow to up to 3.8 liters per minute, letting you save water and energy efficiently. KLUDI technology – reducing costs without sacrificing comfort

KLUDI sensor technology

Thanks to integrated infrared technology, water in KLUDI sensor fittings only flows when the sensor field is activated by hand movement - and this with a noticeably reduced flow rate anyway.

KLUDI ECO PLUS technology

In many KLUDI washbasin and kitchen fittings, this function ensures even greater energy efficiency, as only cold water flows instead of mixed water when the handle is in the standard middle position. This is good for the environment and your budget.

KLUDI technology reducing costs without sacrificing comfort
